

GUNA YASWANTH GADDE

(818)518-1323 | Northridge, CA 91325 | gunagadde@gmail.com | [linkedin.com/in/gadde-guna-yaswanth](https://www.linkedin.com/in/gadde-guna-yaswanth)

SUMMARY

Computer Science graduate (Honours, GPA 3.611) with a strong foundation in software development, from writing clean Python and JavaScript code to designing REST APIs and working across the full stack. Comfortable applying Data Structures, Algorithms, and OOP principles to solve real problems, with practical experience deploying applications using AWS, Docker, and CI/CD pipelines. Brings hands-on project and internship experience building functional, scalable systems, along with strong teamwork and communication skills suited for collaborative engineering environments.

SKILLS SUMMARY

- Programming Languages: Python, JavaScript
- Web Development: HTML, CSS, JavaScript
- Computer Science Fundamentals: Data Structures & Algorithms, Object-Oriented Programming (OOP)
- Backend & APIs: REST APIs, Flask
- Databases: MySQL, PostgreSQL
- Tools & Version Control: Git, GitHub, VS Code
- Cloud & DevOps (Bonus): AWS, Docker, CI/CD
- Soft Skills: Communication, Problem-Solving, Attention to Detail, Teamwork, Time Management, Leadership, Decision-Making

EDUCATION

Master of Computer Science - With Honors

May 2026

California State University, Northridge (CSUN)

Thesis: Hybrid DenseNet-Transformer for Fair and Explainable Skin Cancer Detection | AUC: 0.814 | Advisor: Dr. Mahdi Ebrahimi

Bachelor of Computer Science & Engineering

May 2023

Vel Tech Rangarajan Dr. Sagunthala R & D Institute of Science and Technology, Chennai, India

WORK EXPERIENCE

AI Data Specialist (Project Spectra)

Mar 2026 – Paused

Handshake

- Contributed to building high-quality image datasets for AI systems by performing detailed annotation, evaluation, and validation tasks, applying a strong foundation in data analysis and attention to detail.
- Followed structured guidelines to ensure consistency and reliability across large-scale datasets, while leveraging analytical thinking to identify patterns and edge cases that improve dataset quality and model performance. Collaborated with cross-functional teams using internal tools to meet project deadlines and maintain high data standards.
- Maintained strict confidentiality and data security practices while working on sensitive AI-related projects, aligning with best practices in data handling and professional ethics

Graduate Student Assistant - Data Analytics

Nov 2024 – May 2026

CSUN Career Center

- Reviewed and approved 500+ job postings weekly on the Handshake platform, ensuring compliance, accuracy, and platform integrity.
- Analyzed student employment and engagement data using Excel and Tableau to uncover hiring trends and improve job placement outcomes.
- Generated performance and engagement reports for students and employers, supporting data-driven decisions across career services.

- Coordinated major career events (Tech Fest, Spring Fest, etc.) serving 200+ employers and 3,000+ students, enhancing employer outreach and student engagement.

DC - Analyst Trainee

Oct 2023 - Dec 2023

Deloitte Consulting

Core Business Operations – Core Technology Operations & Application Engineering

- Monitored and supported production data systems, troubleshooting performance issues across PostgreSQL and Snowflake environments.
- Investigated system incidents through log analysis and root cause identification, reducing downtime by 35%.
- Optimized database performance using query tuning and indexing, improving system responsiveness by 18%.
- Collaborated with cross-functional teams to maintain uptime SLAs and support operational reliability initiatives.
- Automated operational reporting workflows using Jenkins CI/CD to ensure consistent system monitoring and deployment processes.

Intern

Jan 2023 - May 2023

Raymedis Medical Technologies Pvt Ltd

- Developed a web-based medical diagnostic tool using HTML, CSS, and JavaScript, integrated with a Machine Learning model to predict diseases from patient inputs, improving early diagnosis efficiency.
- Combined Machine Learning and Web Development to create an interactive platform that supports healthcare professionals with data-driven decision-making.

PROJECT EXPERIENCE

Bee – Personal AI Assistant (Independent Project) | [Live Demo](#)

Jun 2026 – Present

- Designing and developing Bee, a personal AI chatbot built with Python (Flask), featuring persistent chat memory, multi-session history, and image-based interaction.
- Building a unique AI-powered mock interview module combining live camera and voice input to evaluate tone, confidence, and body language, with detailed performance scoring and session-over-session progress tracking — a feature not offered by mainstream chatbots like ChatGPT or Gemini.

Fraudulent Return Order Detection in Reverse Supply Chain, CSUN

Jan 2024 – May 2024

- Developed a real-time e-commerce fraud detection system using Random Forest and IP scoring APIs (IPQualityScore, Amazon Fraud Detector) to identify and prevent return fraud.
- Implemented a Kafka-based data pipeline for streaming transactions and integrated Power BI dashboards to visualize fraud hotspots by region and product category.

Real-Time Multi-Attribute Facial Recognition, Vel Tech

Jan 2023 – May 2023

- Developed a real-time facial attribute recognition system using OpenCV and TensorFlow to detect emotion, age, gender, and facial ID.
- Optimized a modular CNN architecture for edge deployment, achieving 15+ FPS on low-resource devices and enabling integration with surveillance and HCI systems.

Lung Cancer Prediction Using ML, Vel Tech

May 2022

- Developed machine learning classifiers (SVM, Random Forest) to detect malignant lung nodules from 1,000+ CT scan images, achieving 92% classification accuracy.
- Improved model performance by 18% through feature scaling and dimensionality reduction (PCA), enhancing diagnostic reliability and computational efficiency.

VOLUNTEER EXPERIENCE

Orientation Leader

April 2024 - Present

CSUN New Student Orientation (NSO)

- Led campus tours and coordinated orientation events for 500+ new students, promoting engagement with academic programs and extracurricular activities.
- Mentored 50+ incoming students, offering personalized guidance and resources to support a smooth transition into university life.

Volunteer

Feb 2024 - Present

CSUN Popup Pantry

- Assisted in organizing and distributing food supplies to 200+ community members weekly, ensuring efficient and timely service.
- Collaborated with a diverse team and community, strengthening communication and improving overall distribution efficiency by 15%.

Volunteer

July 2020 - May 2023

National Service Scheme (NSS)

- Provided compassionate care and emotional support to 40+ orphans and seniors, fostering a safe, inclusive, and nurturing environment.
- Organized and led 15+ daily activities such as educational games, storytelling, and light exercises to enhance participants' mental and physical well-being.
